

Report: Debt Relief Success Rate

1 Summary

- Number of persons in the sample: **N = 1 088**
- Successfully discharged: **496**
- Overall success rate: **0.4559** (i.e., **45.59%**)

The overall success rate in this sample is below one half. This is only a descriptive result for the observed data and should not be generalized beyond the sample without further analysis.

2 Success rate by sex/gender

Unspecified sex/gender: **0** persons (excluded from the table below).

Table 1: Success rate by sex/gender

Sex/Gender	Persons	Successful	Success rate	Success rate (%)
F	534	250	0.4682	46.82
M	554	246	0.4440	44.40

The success rate is slightly higher for women than for men in this sample.

3 Success rate by court

Table 2: Success rate by court

Court	Persons	Successful	Success rate	Success rate (%)
Regional Court in Prague	150	72	0.4800	48.00
Regional Court in Ceske Budejovice	113	54	0.4779	47.79
Regional Court in Usti nad Labem	174	83	0.4770	47.70
Regional Court in Ostrava	169	80	0.4734	47.34
Municipal Court in Prague	98	44	0.4490	44.90
Regional Court in Pilsen	143	64	0.4476	44.76
Regional Court in Brno	123	52	0.4228	42.28
Regional Court in Hradec Kralove	118	47	0.3983	39.83

Success rates differ across courts. Prague court has the highest observed success rate in this sample, while Hradec Kralove has the least observed success rate.

4 Success rate over time

The time anchor is the year of the earliest observed “request/start” event in each case.

Table 3: Success rate by year (request/start year)

Year	Persons	Successful	Success rate	Success rate (%)
2014	119	40	0.3361	33.61
2015	226	80	0.3540	35.40
2016	240	100	0.4167	41.67
2017	237	139	0.5865	58.65
2018	266	137	0.5150	51.50

The success rate appears to increase between 2014 and 2017, followed by a moderate decline in 2018.
